

ABDELRAMAN SANDID

FULL STACK DEVELOPER

EXPERIENCE

University Group Project Jan 2025 – June 2025
Full Stack Developer NKT

Collaborated within an agile development team to engineer a custom AI chatbot for NKT Cables, translating client requirements into technical implementation to automate and streamline user inquiry resolution.

Personal Portfolio Project Aug 2025 – Sep 2025
Full Stack Developer

Engineered a full-stack productivity tool with Next.js, implementing server-side rendering, robust CRUD operations, and secure database integrations to optimize user task management

Personal Portfolio Project Oct 2025 – Dec 2025
Frontend Developer

Built a dynamic movie discovery app using the TMDB API, prioritizing advanced React patterns and reusable components to create a responsive, cinematic user experience.

Personal Portfolio Project Dec 2025 – Jan 2026
Frontend Developer

Built a dynamic movie discovery app using the TMDB API, prioritizing advanced React patterns and reusable components to create a responsive, cinematic user experience.
